About me

Marital status: Single

Date of birth: 15. 9. 1987

Location: Prague / Rakovník, Czech Republic, European Union

Driving license: B

My goal is to bring people high quality and usable applications with accent on safety, high performance and effectivity for **web, Android & iOS** platforms preferring **JavaScript, TypeScript** and **Go + (No)SQL** databases. I'm focused on frameworks **Angular** and **React** on web frontend and high-scalable applications on backend in **Node.js** and **Go** mostly based on REST & **GraphQL** APIs, **HTTP/2** or websocket interface deployed in **cloud** platforms using usually **Docker** and **Kubernetes**.

In recent years, I have mainly been involved in the design of **application architecture from scratch**, including complex infrastructure with focus on **Microsoft Azure** and Linux servers like **Debian & RHEL**.

Teamwork is needed to build a successful app, so I recruit motivated and enthusiastic people where one supports the other. I also achieve this goals by establishing high effective development processes and project methodologies in agile environment and by define technology strategy implementing **CI/CD** best practices.
